A man with a beard, wearing a dark suit and tie, sits on a white modern chair. He is holding a white coffee cup. To his right sits a white humanoid robot with visible mechanical joints. The robot also sits on a similar white chair. A black briefcase sits on the floor next to the man's chair. The background is a plain, light-colored wall.

The background is a deep black space filled with numerous small, distant stars. Several prominent stars are highlighted with bright white crosshair-like starburst effects, giving the impression of light reflecting off a surface or a camera lens flare. The text is centered in a white, elegant serif font.

Requirements

Internal auditors must perform their work with honesty and professional courage.

Internal auditors must be truthful, accurate, clear, open, and respectful in all professional relationships and communications, even when expressing skepticism or offering an opposing viewpoint. Internal auditors must not make false, misleading, or deceptive statements, nor conceal or omit findings or other pertinent information from communications. Internal auditors must disclose all material facts known to them that, if not disclosed, could affect the organization's ability to make well-informed decisions.

Internal auditors must exhibit professional courage by communicating truthfully and taking appropriate action, even when confronted by dilemmas and difficult situations.

The chief audit executive must maintain a work environment where internal auditors feel supported when expressing legitimate, evidence-based engagement results, whether favorable or unfavorable.

Psychologische Veiligheid - Handvatten voor internal audit

Deze nieuwe publicatie van IIA Nederland biedt praktische handvatten voor auditen van psychologische veiligheid. Het beschrijft het begrip en haar belang en gaat vervolgens in op de verschillende soorten onderzoeken, modellen en passende technieken.

Aanvullend geeft de publicatie concrete handreikingen voor een psychologisch veilige IAF en uitvoering van audits. Hiervan profiteren zowel de auditors als auditees. Lees de volledige publicatie voor de theoretische onderbouwing en praktische toepassingen.

CONTINUOUS LEARNING

BELIEVE IN YOUR
BRAIN POTENTIAL

CHERISH YOUR
COMPLEXITY

02 Creativity

Dare to innovate creatively by diverging within an innovation continuum! Diversify your relationships and experiences, shift perspectives, and make space for reflective brainstorming.

Critical Thinking 03

Take a critical look at the world, but especially at your own brain! How biased are you, and do you fall prey to noise?

01 Curiosity

Stimulate curiosity as an antidote to the fear of the unknown, embrace not knowing, and ask questions like a scientist!

Commitment 04

Commitment is voluntary, but not optional. Negativity spreads like wildfire, but so does passion! Step out of your comfort zone and discover what you need to achieve your goals!

07 Continuous Learning

No matter how senior you are, you're never done. In a fast-paced world, lifelong learning is a top priority. Embrace and nourish the complexity of your brain!

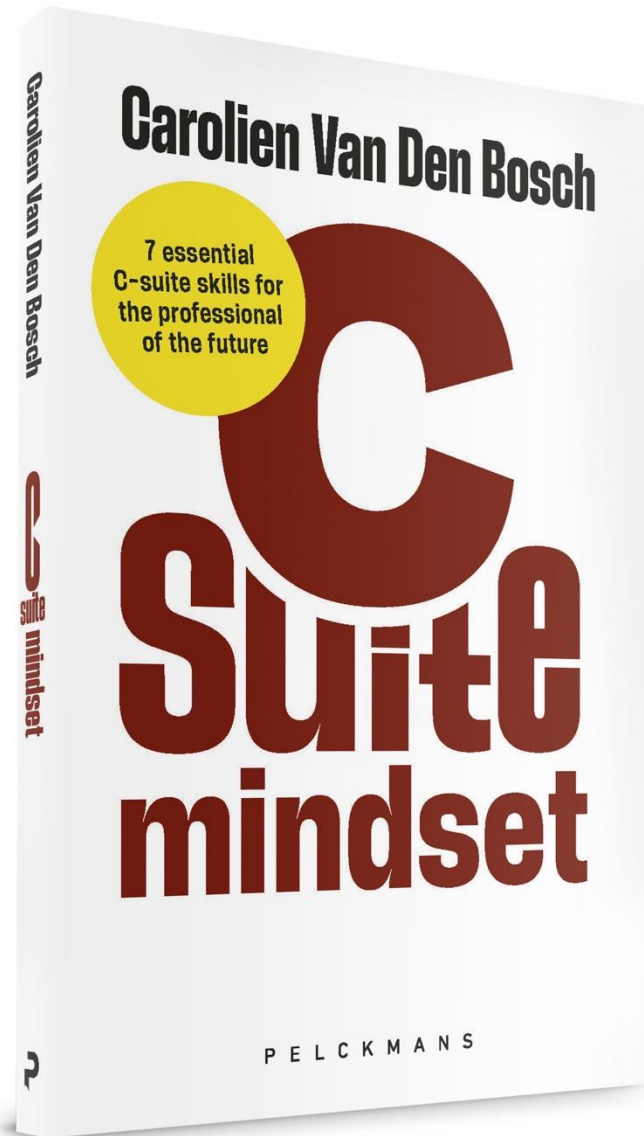

06 Care

Compassion = empathy + action. High performers understand that caring for employees and productivity go hand in hand, but they also prioritize self-care!

Courage 05

Courage is not the absence of fear, but the willingness to act despite it. Strengthen your courage, even in times of uncertainty and amidst challenges!
